Choosing course:

Top seeded team chooses two courses as potential courses for respective match. Lower seeded team may then choose from one of the two courses.

Example Round 1:

#4 vs #19 (#4 is higher seed)

#4 may choose two courses from list of courses available for Round 1.

#19 may then choose from one of those two courses.

This will hopefully prevent anyone from having to play a match on a course where they feel they have an unfair advantage.
